

# Linking the Gender Training Toolkit to LEAP

World Vision's design, monitoring and evaluation (DME) is called LEAP. In English, the acronym stands for Learning through Evaluation with Accountability and Planning. This framework is the result of a comprehensive Partnership process to achieve a common DME approach.

LEAP promotes quality, accountability and professionalism in programming with communities. LEAP implementation builds competence and confidence, and models systematic prospective learning.<sup>1</sup>

Integration of Gender and Development analysis and principles within each phase of the LEAP Cycle is an important goal in the Gender Training Toolkit. Key GAD concepts support sound conceptualisation and rigorous programme design within Assessment, Design, Implementation, Monitoring and Evaluation and Reflection.
